

My Vicuna

Artist Claudia Martínez Garay has a tufting in her DCA exhibition, *Every seed is awakened*, that features a vicuna. A vicuna is a Peruvian camelid, like a llama or alpaca. Its soft fleece is very valuable - the most expensive wool in the world. The vicuna in the artwork is carrying interesting symbols, foods, gifts and offerings.

- Add your own symbols, foods, gifts and offerings to the vicuna below. You can do this by collaging pictures from magazines or drawing your own.
